

Setting up on App Engine standard environment

[App Engine standard environment](/appengine/docs/about-the-standard-environment) (/appengine/docs/about-the-standard-environment) is configured to use Error Reporting automatically, but you might need to complete additional setup instructions, depending on your [platform](/error-reporting/docs/setup#setup-by-platform) (/error-reporting/docs/setup#setup-by-platform) and [language](/error-reporting/docs/setup#setup-by-language) (/error-reporting/docs/setup#setup-by-language).

Only errors containing a stack trace are processed.

Refer to [Viewing errors](/error-reporting/docs/viewing-errors) (/error-reporting/docs/viewing-errors) for instructions on viewing error and exception data for your application in the Cloud Console.
