[Cloud Natural Language API](https://cloud.google.com/natural-language/) (<https://cloud.google.com/natural-language/>)

[Documentation](https://cloud.google.com/natural-language/docs/) (<https://cloud.google.com/natural-language/docs/>) [Reference](#)

APIs and Reference

The easiest and recommended way for most users to use the Cloud Natural Language API is with our provided [client libraries](https://cloud.google.com/natural-language/docs/reference/libraries) (<https://cloud.google.com/natural-language/docs/reference/libraries>). They provide an optimized developer experience by using each supported language's natural conventions and styles. They also reduce the boilerplate code you have to write because they're designed to enable you to work with service metaphors in mind, rather than implementation details or service API concepts. You can find out more about client libraries for Cloud APIs in [Client Libraries Explained](https://cloud.google.com/apis/docs/client-libraries-explained) (<https://cloud.google.com/apis/docs/client-libraries-explained>).

[GET STARTED \(HTTPS://CLOUD.GOOGLE.COM/NATURAL-LANGUAGE/DOCS/QUICKSTART-CLIENT-LIB\)](https://cloud.google.com/natural-language/docs/quickstart-client-libraries)

If you are an advanced user and our client libraries don't meet your specific needs, you can also develop your own client libraries to directly access Cloud Natural Language API's REST/HTTP and gRPC interfaces. You'll find all the relevant resources in the [Service APIs](https://cloud.google.com/natural-language/docs/reference/service_apis_overview) (https://cloud.google.com/natural-language/docs/reference/service_apis_overview) section.

Libraries and APIs

Cloud Natural Language API Client Libraries

Start using the Cloud Natural Language API in your language of choice.

(<https://cloud.google.com/natural-language/docs/reference/libraries>)

Service APIs

Write your own client code for Cloud Natural Language API using its REST and RPC APIs.

(https://cloud.google.com/natural-language/docs/reference/service_apis_overview)

Other Reference

Command-Line Reference

Use the Cloud Natural Language API with the gcloud command-line tool.

(<https://cloud.google.com/sdk/gcloud/reference/ml/language/>)

Language Support

Languages currently supported by the Cloud Natural Language API.
