Private Catalog  (https://cloud.google.com/private-catalog/)
Documentation  (https://cloud.google.com/private-catalog/docs/) Guides

# Creating a catalog

In this guide, you learn how to create a new catalog.

## Before you begin

1. Sign in (https://accounts.google.com/Login) to your Google Account.

   If you don't already have one, sign up for a new account
   (https://accounts.google.com/SignUp).

2. In the Cloud Console, on the project selector page, select or create a Google Cloud project.

★ **Note**: If you don't plan to keep the resources that you create in this procedure, create a project instead of selecting an existing project. After you finish these steps, you can delete the project, removing all resources associated with the project.

GO TO THE PROJECT SELECTOR PAGE (HTTPS://CONSOLE.CLOUD.GOOGLE.COM/PROJECTSELECT

3. Make sure that billing is enabled for your Google Cloud project. Learn how to confirm billing is enabled for your project (https://cloud.google.com/billing/docs/how-to/modify-project).

4. Enable the Deployment Manager and Compute Engine APIs.

ENABLE THE APIS (HTTPS://CONSOLE.CLOUD.GOOGLE.COM/FLOWS/ENABLEAPI?APIID=DEPLOYM

5. Before you can create a catalog, make sure to add yourself to the`cloudprivatecatalog.catalogAdmin` and `cloudprivatecatalog.catalogManager` roles in the organization node.

# Create a catalog

When you create a new catalog, you give it a name and a description.

To create a catalog:

1.  Go to the Cloud Console Private Catalog (https://console.cloud.google.com/project/_/catalog)
    page.

    **GO TO THE PRIVATE CATALOG PAGE** (HTTPS://CONSOLE.CLOUD.GOOGLE.COM/PROJECT/_/CATALC

2.  Click **Select** to choose the Google Cloud project.

3.  Click **Manage Solutions**.

4.  Click **Create Catalog**.

5.  Enter a name for the catalog.

6.  Enter a description of the catalog. The description is only visible to cloud admins.

7.  Click **Create**.

# Next steps

-   Add a link-based solution (https://cloud.google.com/private-catalog/docs/link-based-solution).

-   Add a Google Cloud Marketplace product
    (https://cloud.google.com/private-catalog/docs/marketplace-products).

-   Add a Deployment Manager-based solution
    (https://cloud.google.com/private-catalog/docs/dm-based-solution).
