

Set up Security Command Center for your organization for the first time.

[\(/security-command-center/docs/quickstart-scc-setup\)](/security-command-center/docs/quickstart-scc-setup)

Access Security Command Center, and use some basic features to configure the display and review your Google Cloud resources.

[\(/security-command-center/docs/quickstart-scc-dashboard\)](/security-command-center/docs/quickstart-scc-dashboard)

Enable Security Health Analytics to write security findings from Google Cloud native scanners to Security Command Center.
