Management Tools (https://cloud.google.com/products/management/)

Cloud Shell (https://cloud.google.com/shell/) Documentation

Method: users.environments.publicKeys.delete

Removes a public SSH key from an environment. Clients will no longer be able to connect to the environment using the corresponding private key.

HTTP request

`DELETE`
`https://cloudshell.googleapis.com/v1alpha1/{name=users/*/environments/*/publicKeys/*`
`}`

The URL uses gRPC Transcoding (https://github.com/googleapis/googleapis/blob/master/google/api/http.proto) syntax.

Path parameters

Parameters	
name	string Name of the resource to be deleted, e.g. `users/me/environments/default/publicKeys/my-key`.

Request body

The request body must be empty.

Response body

If successful, the response body will be empty.

Authorization Scopes

Requires the following OAuth scope:

- `https://www.googleapis.com/auth/cloud-platform`

For more information, see the Authentication Overview
(https://cloud.google.com/docs/authentication/).
