

Accesses source code repositories hosted by Google.

All URIs below are relative to <https://sourcerepo.googleapis.com>

This service provides the following [discovery document](#) (<https://developers.google.com/discovery/v1/reference/apis>):

- [https://sourcerepo.googleapis.com/\\$discovery/rest?version=v1](https://sourcerepo.googleapis.com/$discovery/rest?version=v1)
([https://sourcerepo.googleapis.com/\\$discovery/rest?version=v1](https://sourcerepo.googleapis.com/$discovery/rest?version=v1))

Methods

getConfig

(/source-repositories/docs/reference/rest/v1/projects/getConfig)

GET /v1/{name=projects/*/config

Returns the Cloud Source Repositories configuration of the project.

updateConfig

(/source-repositories/docs/reference/rest/v1/projects/updateConfig)

PATCH /v1/{name=projects/*/config

Updates the Cloud Source Repositories configuration of the project.

Methods

create

(/source-repositories/docs/reference/rest/v1/projects/repos/create)

POST /v1/{parent=projects/*/repos

Creates a repo in the given project with the given name.

Methods	
<u>delete</u> (/source-repositories/docs/reference/rest/v1/projects.repos/delete)	DELETE /v1/{name=projects/*/repos/**} Deletes a repo.
<u>get</u> (/source-repositories/docs/reference/rest/v1/projects.repos/get)	GET /v1/{name=projects/*/repos/**} Returns information about a repo.
<u>getIamPolicy</u> (/source-repositories/docs/reference/rest/v1/projects.repos/getIamPolicy)	GET /v1/{resource=projects/*/repos/**} :getIamPolicy Gets the access control policy for a resource.
<u>list</u> (/source-repositories/docs/reference/rest/v1/projects.repos/list)	GET /v1/{name=projects*/}/repos Returns all repos belonging to a project.
<u>patch</u> (/source-repositories/docs/reference/rest/v1/projects.repos/patch)	PATCH /v1/{name=projects/*/repos/**} Updates information about a repo.
<u>setIamPolicy</u> (/source-repositories/docs/reference/rest/v1/projects.repos/setIamPolicy)	POST /v1/{resource=projects/*/repos/**} :setIamPolicy Sets the access control policy on the specified resource.
<u>testIamPermissions</u> (/source-repositories/docs/reference/rest/v1/projects.repos/testIamPermissions)	POST /v1/{resource=projects/*/repos/**} :testIamPermissions Returns permissions that a caller has on the specified resource.
