

This page contains current pricing and quota information for Cloud Source Repositories.

As part of the [Google Cloud Free Tier \(/free\)](#), Cloud Source Repositories offers some resources free of charge up to a specific limit. These free usage limits are available during and after the free trial period. If you go over these usage limits and are no longer in the free trial period, you will be charged according to the pricing on this page.

Resource	Monthly free usage limits	Details
Users per billing account	Cloud Source Repositories is free for up to 5 project-users per billing account.	<p>A project-user is a unique user for a project who reads from or modifies a repository. A user is counted as a project-user if they actually access a repository. Giving a user access to the project does not incur charges unless the user accesses a repository.</p> <p>For example, if you have two projects linked to the same billing account, and you access a repository in each project, you would count as two project users for that billing account.</p>
Storage	Cloud Source Repositories is free for up to 50 GB of storage per month.	
Network egress	Cloud Source Repositories is free for up to 50 GB of network egress per month.	

Cloud Source Repositories charges are billed monthly. Any activity on a billable repository during the month will be charged according to the pricing model.

Cloud Source Repositories pricing is as follows:

Resource	Pricing	Details
Number of repositories	No charge	Cloud Source Repositories does not charge based on the number of repositories you create, but you are subject to the <a href="#">quotas and limitations</a> (#quotas) on repositories.
Per-project users	\$1 per project-user above 5 project-users per month	Project-user charges are not pro-rated. The full charge is assessed when a new unique user reads from or modifies a repository, no matter what day of the month the access occurs.
Storage charges	\$0.10 per GB per month above 50 GB	Disk storage is pro-rated.
Network egress charges	\$0.10 per GB of network egress per month above 50 GB	Egress charges are pro-rated.

If you pay in a currency other than USD, the prices listed in your currency on Cloud Platform SKUs (<https://cloud.google.com/skus/>) apply.

A single Google Cloud project can have a maximum of 1,000 repositories.
