Cloud SQL

Cloud SQL is a fully-managed database service that makes it easy to set up, maintain, manage, and administer your relational databases on Google Cloud Platform.

You can use Cloud SQL with [MySQL](https://cloud.google.com/sql/docs/mysql/) (<https://cloud.google.com/sql/docs/mysql/>), [PostgreSQL](https://cloud.google.com/sql/docs/postgres/) (<https://cloud.google.com/sql/docs/postgres/>), or [SQL Server \(currently in beta\)](https://cloud.google.com/sql/docs/sqlserver/) (<https://cloud.google.com/sql/docs/sqlserver/>). Click a card below for more information.

Not sure what database option is right for you? Learn more about our [database services](https://cloud.google.com/products/databases/) (<https://cloud.google.com/products/databases/>).
