[MySQL](https://cloud.google.com/sql/docs/mysql/) (<https://cloud.google.com/sql/docs/mysql/>) [Guides](#)

Connection options for external applications

MySQL | [PostgreSQL](https://cloud.google.com/sql/docs/postgres/external-connection-methods) (<https://cloud.google.com/sql/docs/postgres/external-connection-methods>) | [SQL Server](#)

This page describes the options for connecting from an application running outside of the Google Cloud, including a mysql client, to your Cloud SQL instance.

Note: If you are connecting from within the Google Cloud, use the instructions for your Google Cloud service:

- [Connecting from App Engine](https://cloud.google.com/sql/docs/mysql/connect-app-engine) (<https://cloud.google.com/sql/docs/mysql/connect-app-engine>)
- [Connecting from Compute Engine](https://cloud.google.com/sql/docs/mysql/connect-compute-engine) (<https://cloud.google.com/sql/docs/mysql/connect-compute-engine>)
- [Connecting from Google Kubernetes Engine](https://cloud.google.com/sql/docs/mysql/connect-kubernetes-engine) (<https://cloud.google.com/sql/docs/mysql/connect-kubernetes-engine>)
- [Connecting from Cloud Functions](https://cloud.google.com/sql/docs/mysql/connect-functions) (<https://cloud.google.com/sql/docs/mysql/connect-functions>)
- [Connecting from Cloud Run](https://cloud.google.com/sql/docs/mysql/connect-run) (<https://cloud.google.com/sql/docs/mysql/connect-run>)

The following table compares the options for connecting from an external application:

Connection option	Secure, encrypted?	More information	Notes
Public IP address with SSL	Yes	<ul style="list-style-type: none"> • Configuring SSL for Instances (https://cloud.google.com/sql/docs/mysql/configure-ssl-instance) • Configuring access for IP connections (https://cloud.google.com/sql/docs/mysql/connect-external-app#appaccessIP) • Connect mysql client using SSL (https://cloud.google.com/sql/docs/mysql/connect-admin-ip#connect-ssl) 	SSL certificate management
Public IP	No	<ul style="list-style-type: none"> • Configuring access for IP connections 	Not recommended for prod

address without SSL		(https://cloud.google.com/sql/docs/mysql/connect-external-app#appaccessIP)	
Cloud SQL Proxy	Yes	<ul style="list-style-type: none"> • Connecting from an external application using the Cloud SQL Proxy (https://cloud.google.com/sql/docs/mysql/connect-external-app#proxy) • Connecting mysql Client Using the Cloud SQL Proxy (https://cloud.google.com/sql/docs/mysql/connect-admin-proxy) • About the Cloud SQL Proxy (https://cloud.google.com/sql/docs/mysql/sql-proxy) 	Not available for First Ge
Cloud SQL Proxy Docker image	Yes	<ul style="list-style-type: none"> • Connecting mysql Client Using the Cloud SQL Proxy Docker Image (https://cloud.google.com/sql/docs/mysql/connect-docker) • About the Cloud SQL Proxy (https://cloud.google.com/sql/docs/mysql/sql-proxy) 	Not available for First Ge
JDBC Socket Library	Yes	<ul style="list-style-type: none"> • External connections with Java (https://cloud.google.com/sql/docs/mysql/connect-external-app#java) • JDBC socket factory GitHub page (https://github.com/GoogleCloudPlatform/cloud-sql-jdbc-socket-factory) 	Java programming language Not available for First Ge
Go Proxy Library	Yes	<ul style="list-style-type: none"> • External connections with Go (https://cloud.google.com/sql/docs/mysql/connect-external-app#go) • Cloud SQL Proxy GitHub page (https://github.com/GoogleCloudPlatform/cloudsql-proxy#to-use-inside-a-go-program) 	Go programming language Not available for First Ge
Cloud Shell	No	<ul style="list-style-type: none"> • Using the mysql client in the Cloud Shell (https://cloud.google.com/sql/docs/mysql/connect-admin-ip#cloud-shell) 	Uses the Cloud SQL Proxy (https://cloud.google.com/sql/docs/mysql/connect-admin-ip#cloud-shell) to easily connect from the Cloud Console. Best for quick access requiring the <code>mysql</code> command.
