Checking the status of import and export operations

MySQL | PostgreSQL

 (https://cloud.google.com/sql/docs/postgres/import-export/checking-status-import-export) | SQL
Server (https://cloud.google.com/sql/docs/sqlserver/import-export/checking-status-import-export)

This page describes how to check the status of your Cloud SQL import and export operations.

Each status message includes:

- A timestamp.

- A status (pending, running, or done).

- A message containing the details of the operation.

Checking the status

To check the status of an import or export:

CONSOLE   GCLOUD

---

1. Go to the Cloud SQL Instances page in the Google Cloud Console.

   GO TO THE CLOUD SQL INSTANCES PAGE (HTTPS://CONSOLE.CLOUD.GOOGLE.COM/SQL/INSTAN

2. Select the instance.

3. Select **Operations**.

   The most recent operations are at the top of the list. Look for "import" or "export" in the message description.

   Note: If your export fails, you can get information about the failure in the instance operations log. Learn more. (https://cloud.google.com/sql/docs/mysql/instance-info#logs)

If you exported into a Cloud Storage bucket, you can also check the log file created by Cloud SQL in the bucket for information about export status.

What's next

- Learn more about underline importing and exporting data (https://cloud.google.com/sql/docs/mysql/import-export/).
