Checking the status of import and export operations

[MySQL](https://cloud.google.com/sql/docs/mysql/import-export/checking-status-import-export) (https://cloud.google.com/sql/docs/mysql/import-export/checking-status-import-export) |

[PostgreSQL](https://cloud.google.com/sql/docs/postgres/import-export/checking-status-import-export) (https://cloud.google.com/sql/docs/postgres/import-export/checking-status-import-export)

| **SQL Server**

Beta

This feature is in a pre-release state and might change or have limited support. For more information, see the [product launch stages](https://cloud.google.com/products/#product-launch-stages) (https://cloud.google.com/products/#product-launch-stages).

This page describes how to check the status of your Cloud SQL import and export operations.

Each status message includes:

- A timestamp.
- A status (pending, running, or done).
- A message containing the details of the operation.

Checking the status

To check the status of an import or export:

CONSOLE

G CLOUD

1. Go to the Cloud SQL Instances page in the Google Cloud Console.

[GO TO THE CLOUD SQL INSTANCES PAGE](https://console.cloud.google.com/sql/instances) (HTTPS://CONSOLE.CLOUD.GOOGLE.COM/SQL/INSTANC

2. Select the instance.

3. Select **Operations**.

The most recent operations are at the top of the list. Look for "import" or "export" in the message description.

Note: If your export fails, you can get information about the failure in the instance operations log. [Learn more.](https://cloud.google.com/sql/docs/sqlserver/instance-info#logs) (<https://cloud.google.com/sql/docs/sqlserver/instance-info#logs>)

If you exported into a Cloud Storage bucket, you can also check the log file created by Cloud SQL in the bucket for information about export status.
