

---

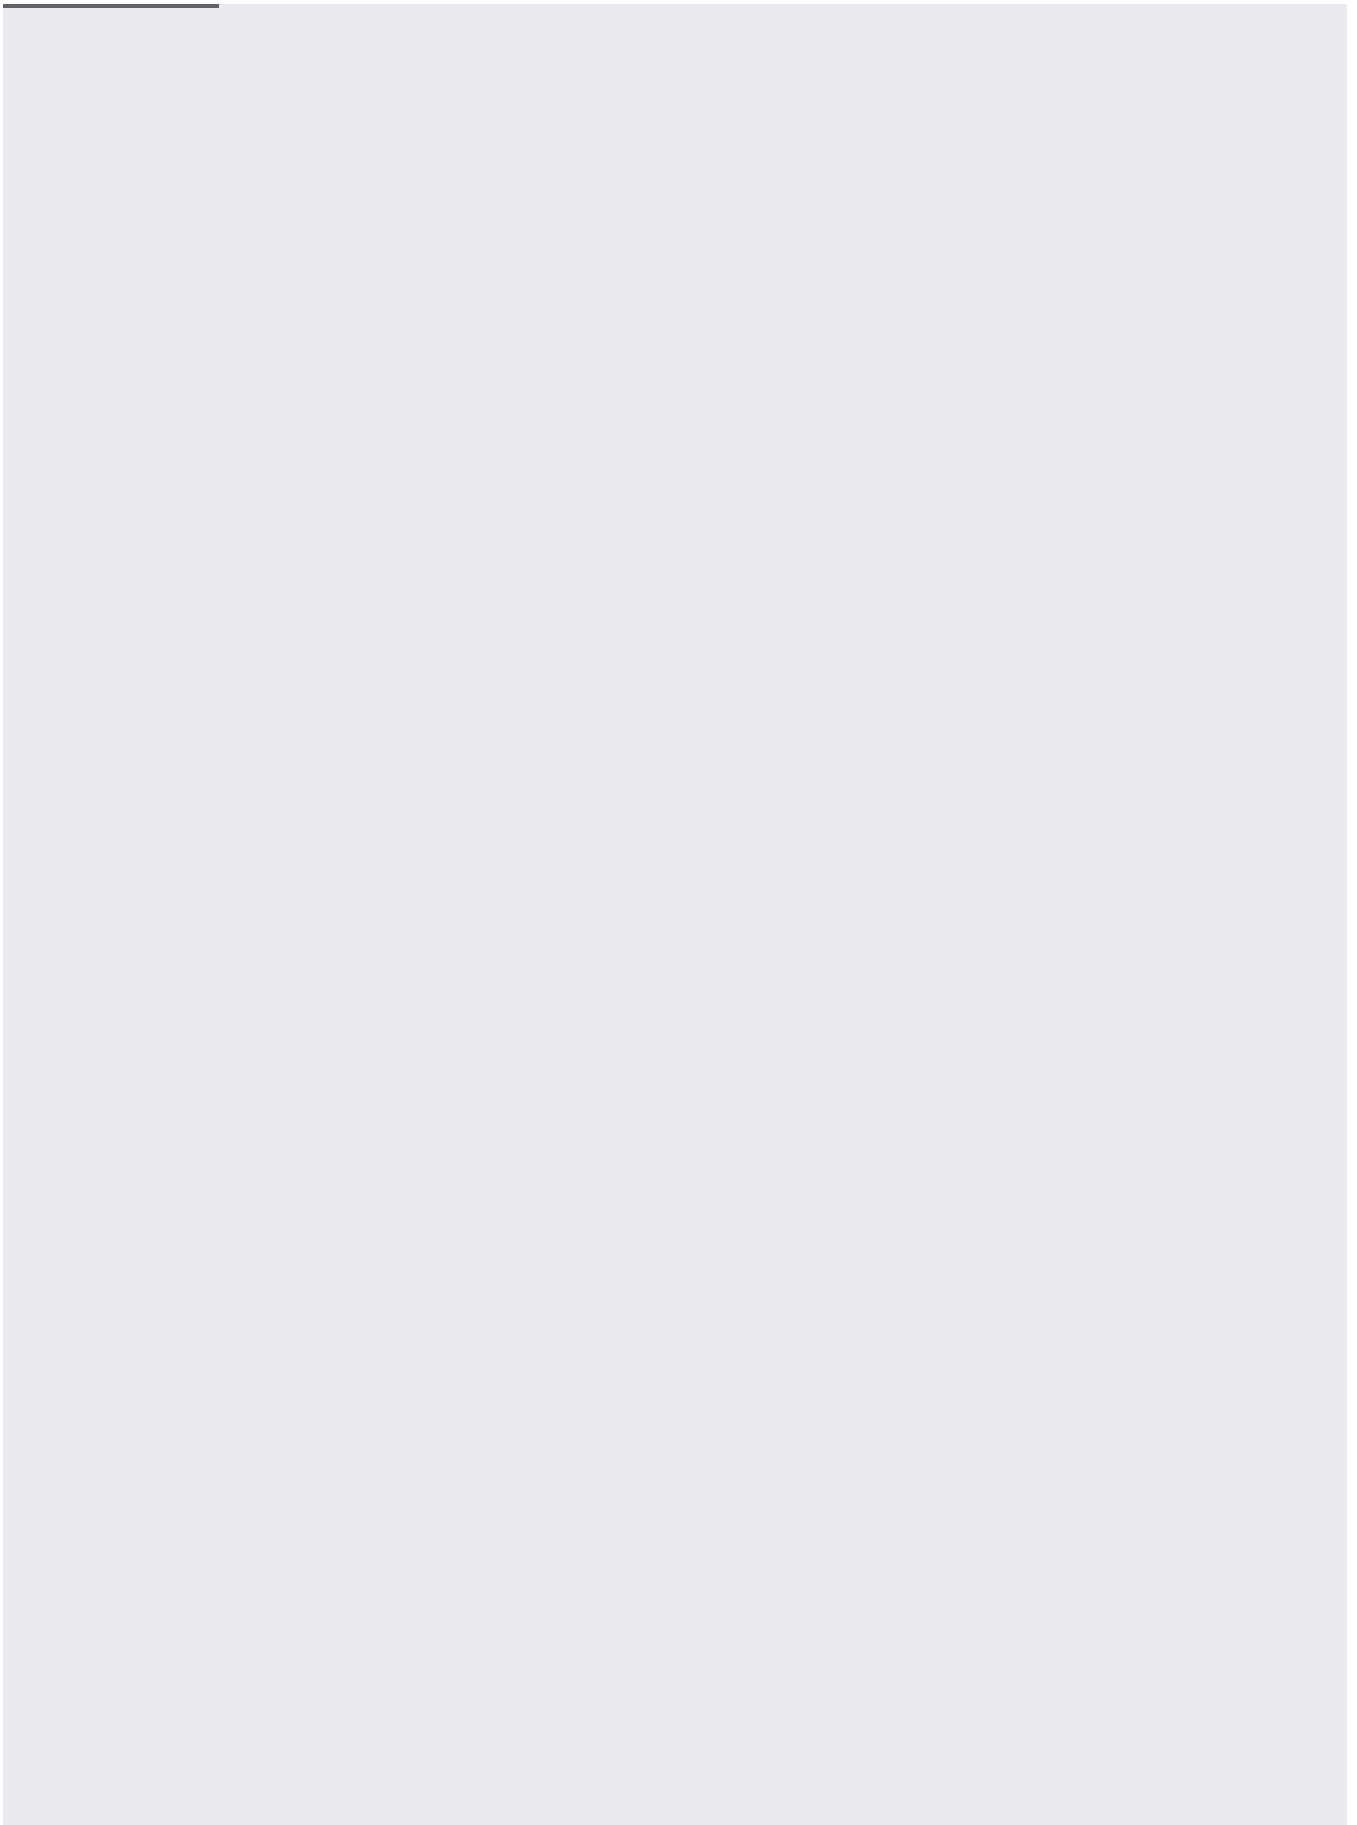

This page shows you how get information on the size and metadata of your Cloud Storage buckets. For an overview of buckets, read the [Key Terms \(/storage/docs/key-terms#buckets\)](/storage/docs/key-terms#buckets). To learn more about specific bucket properties, see [Storage Classes \(/storage/docs/storage-classes\)](/storage/docs/storage-classes) and [Bucket Locations \(/storage/docs/locations\)](/storage/docs/locations).

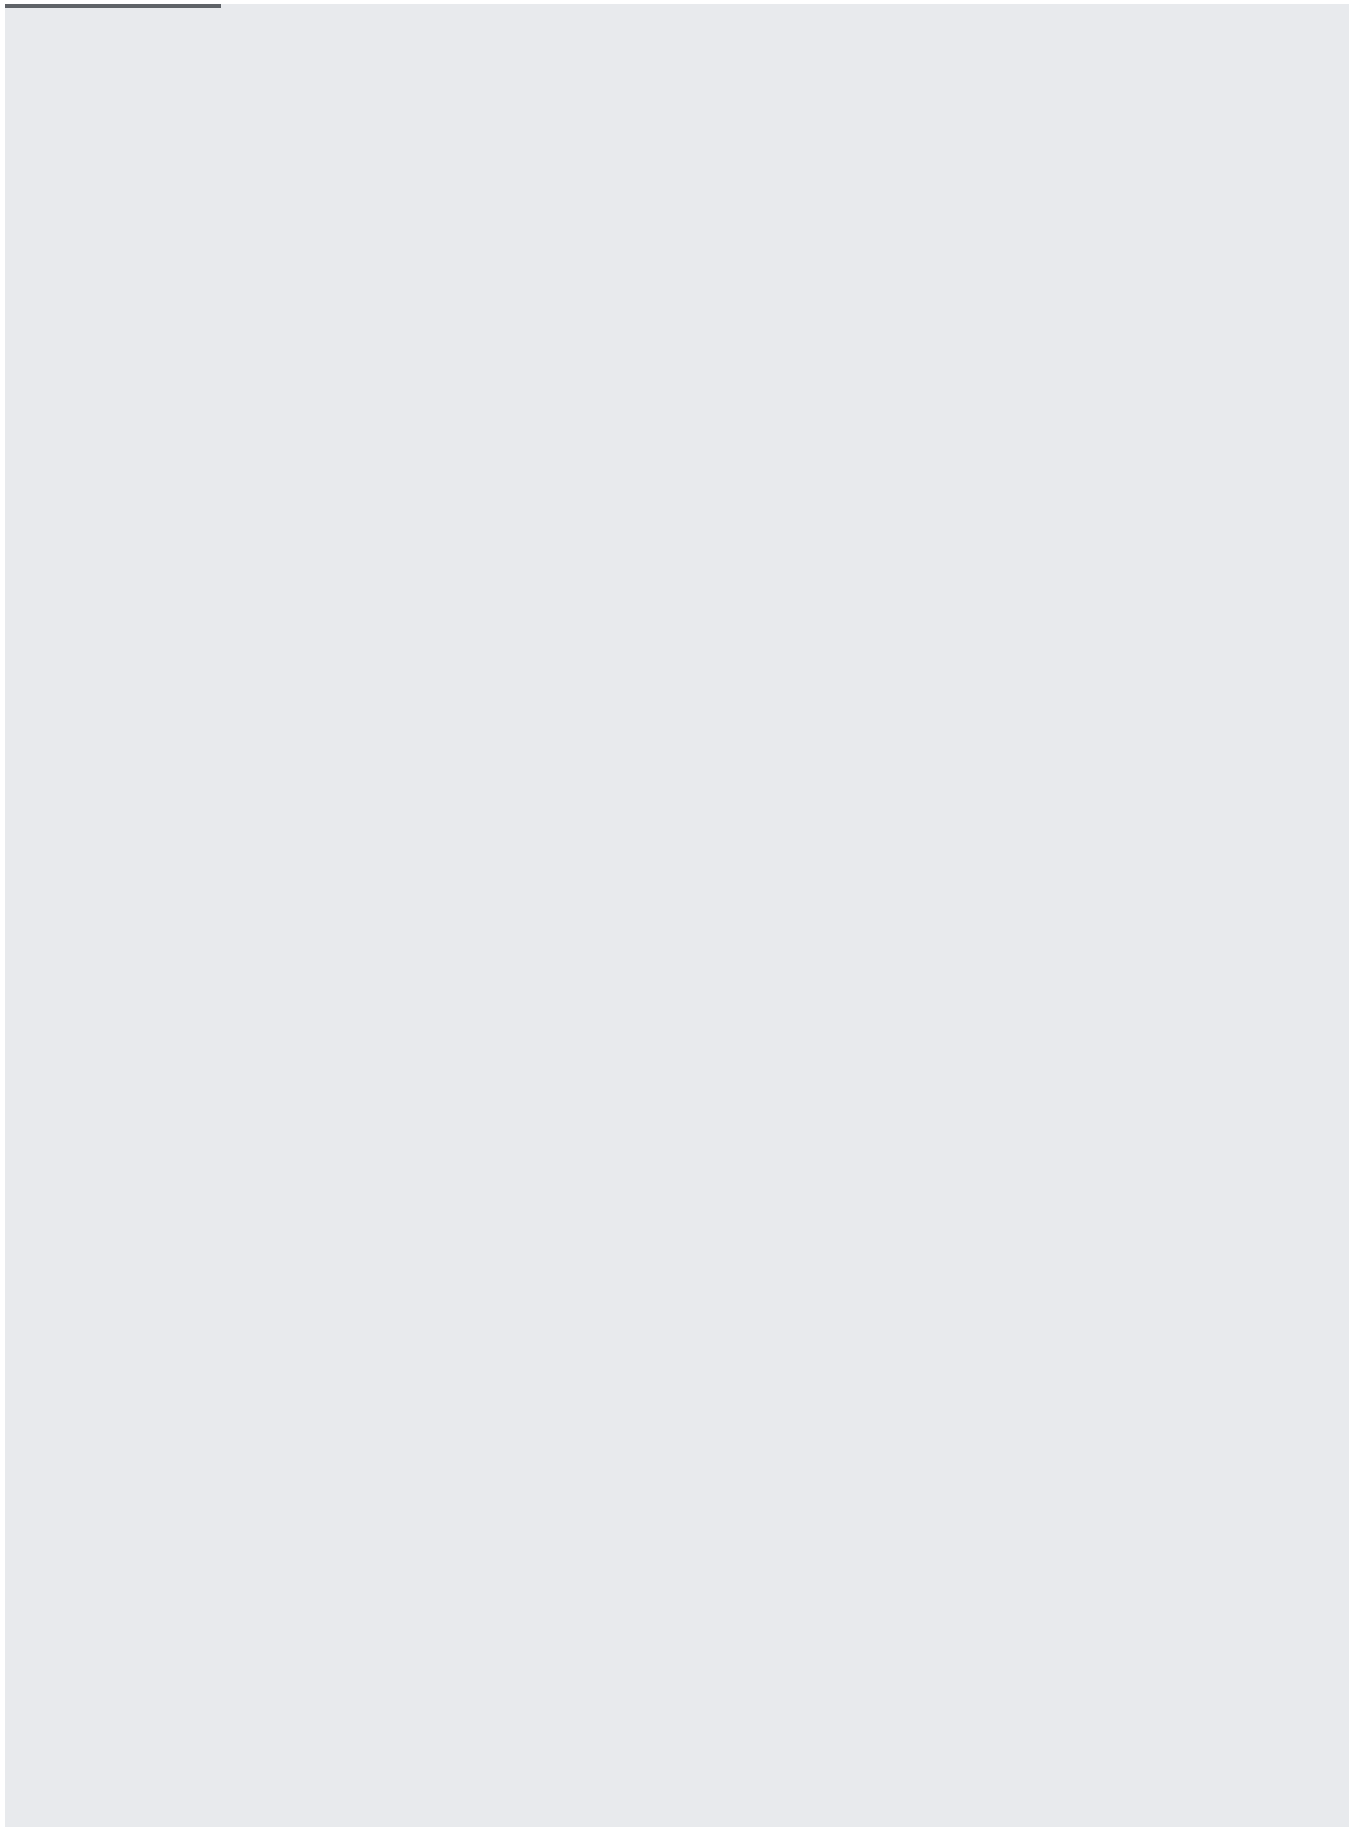

To determine the size of a bucket:

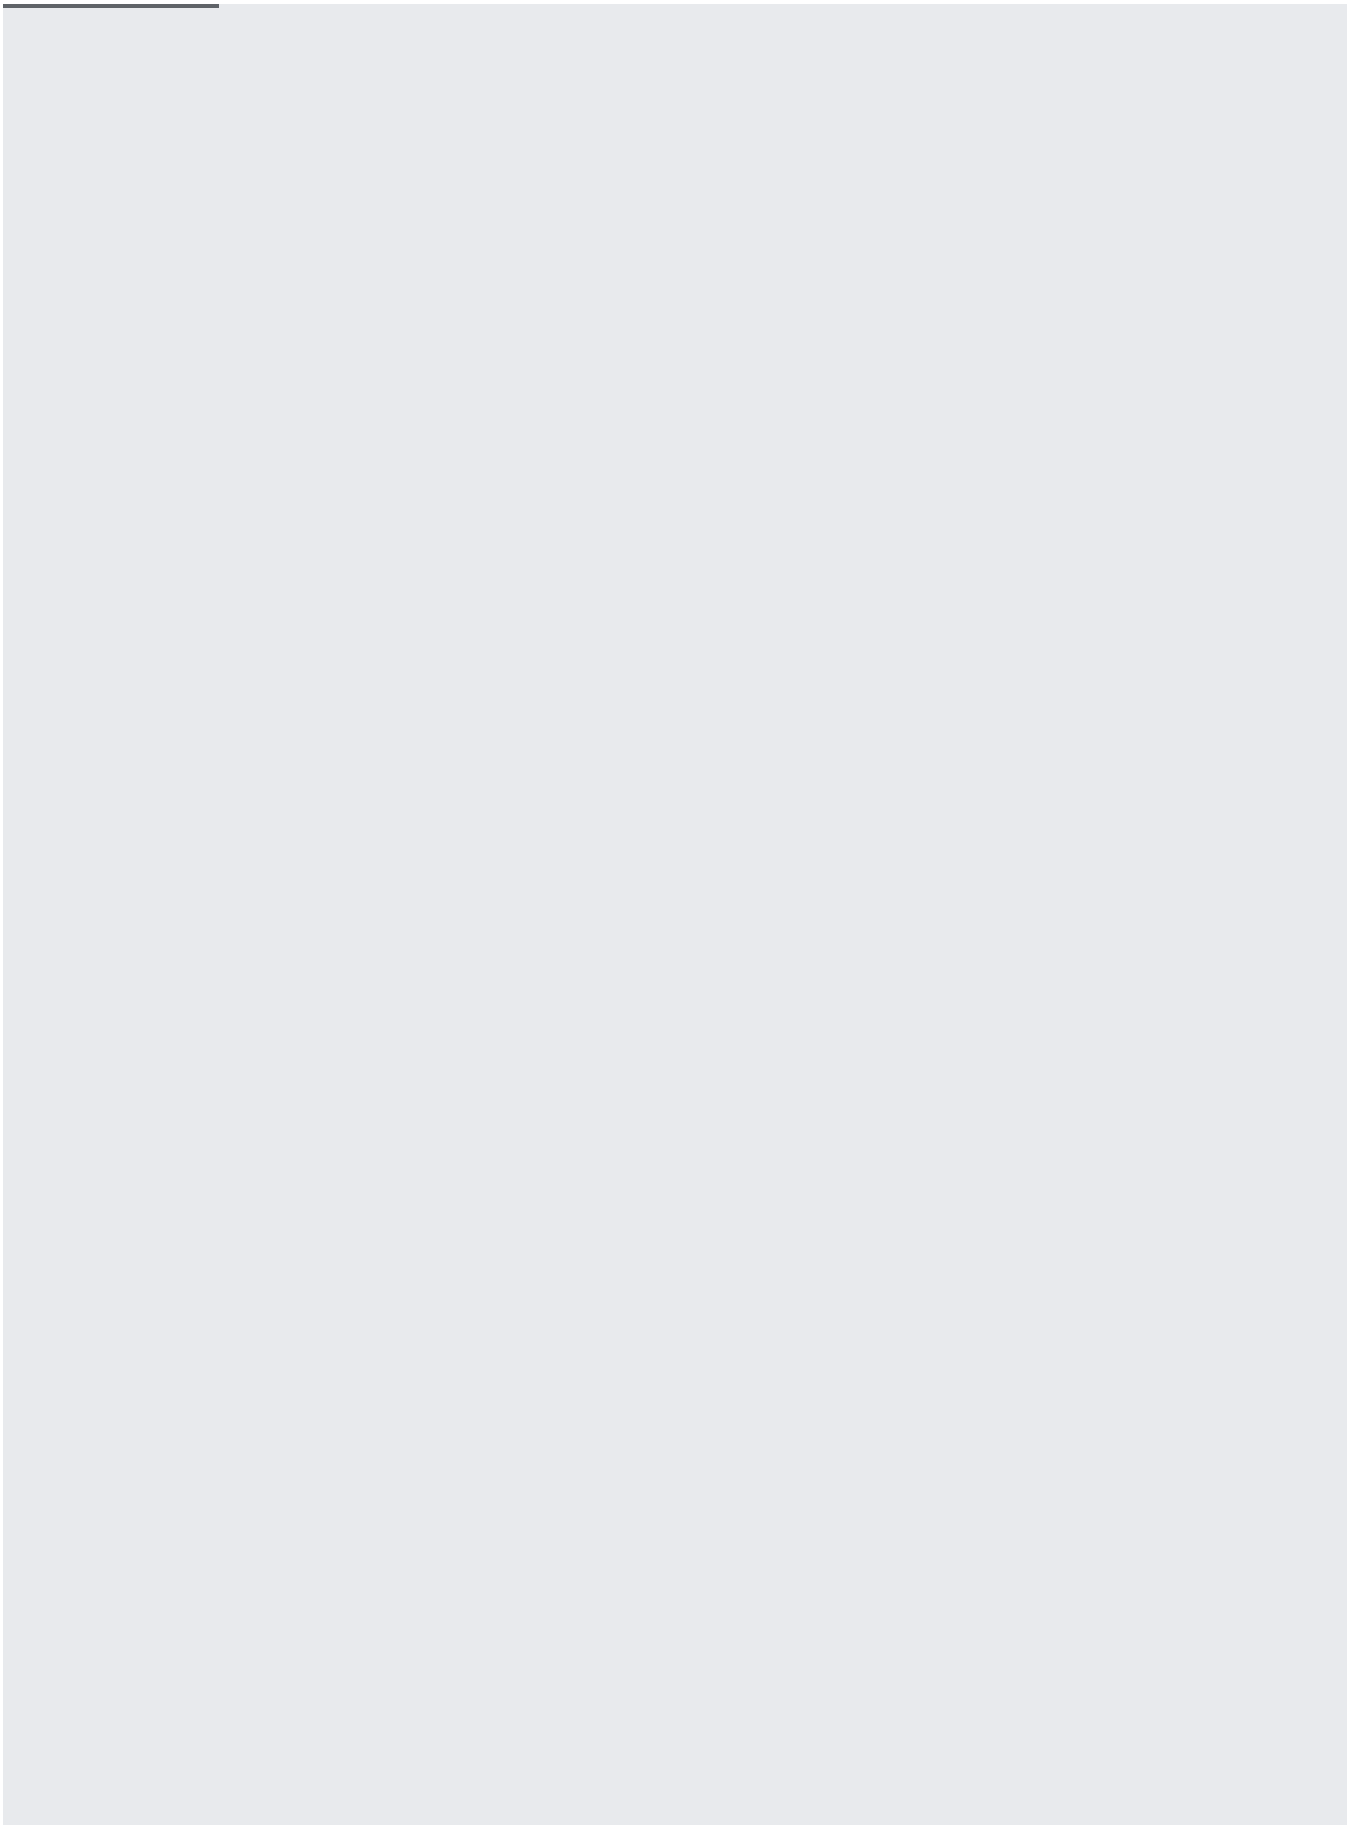

To display the metadata associated with a bucket:

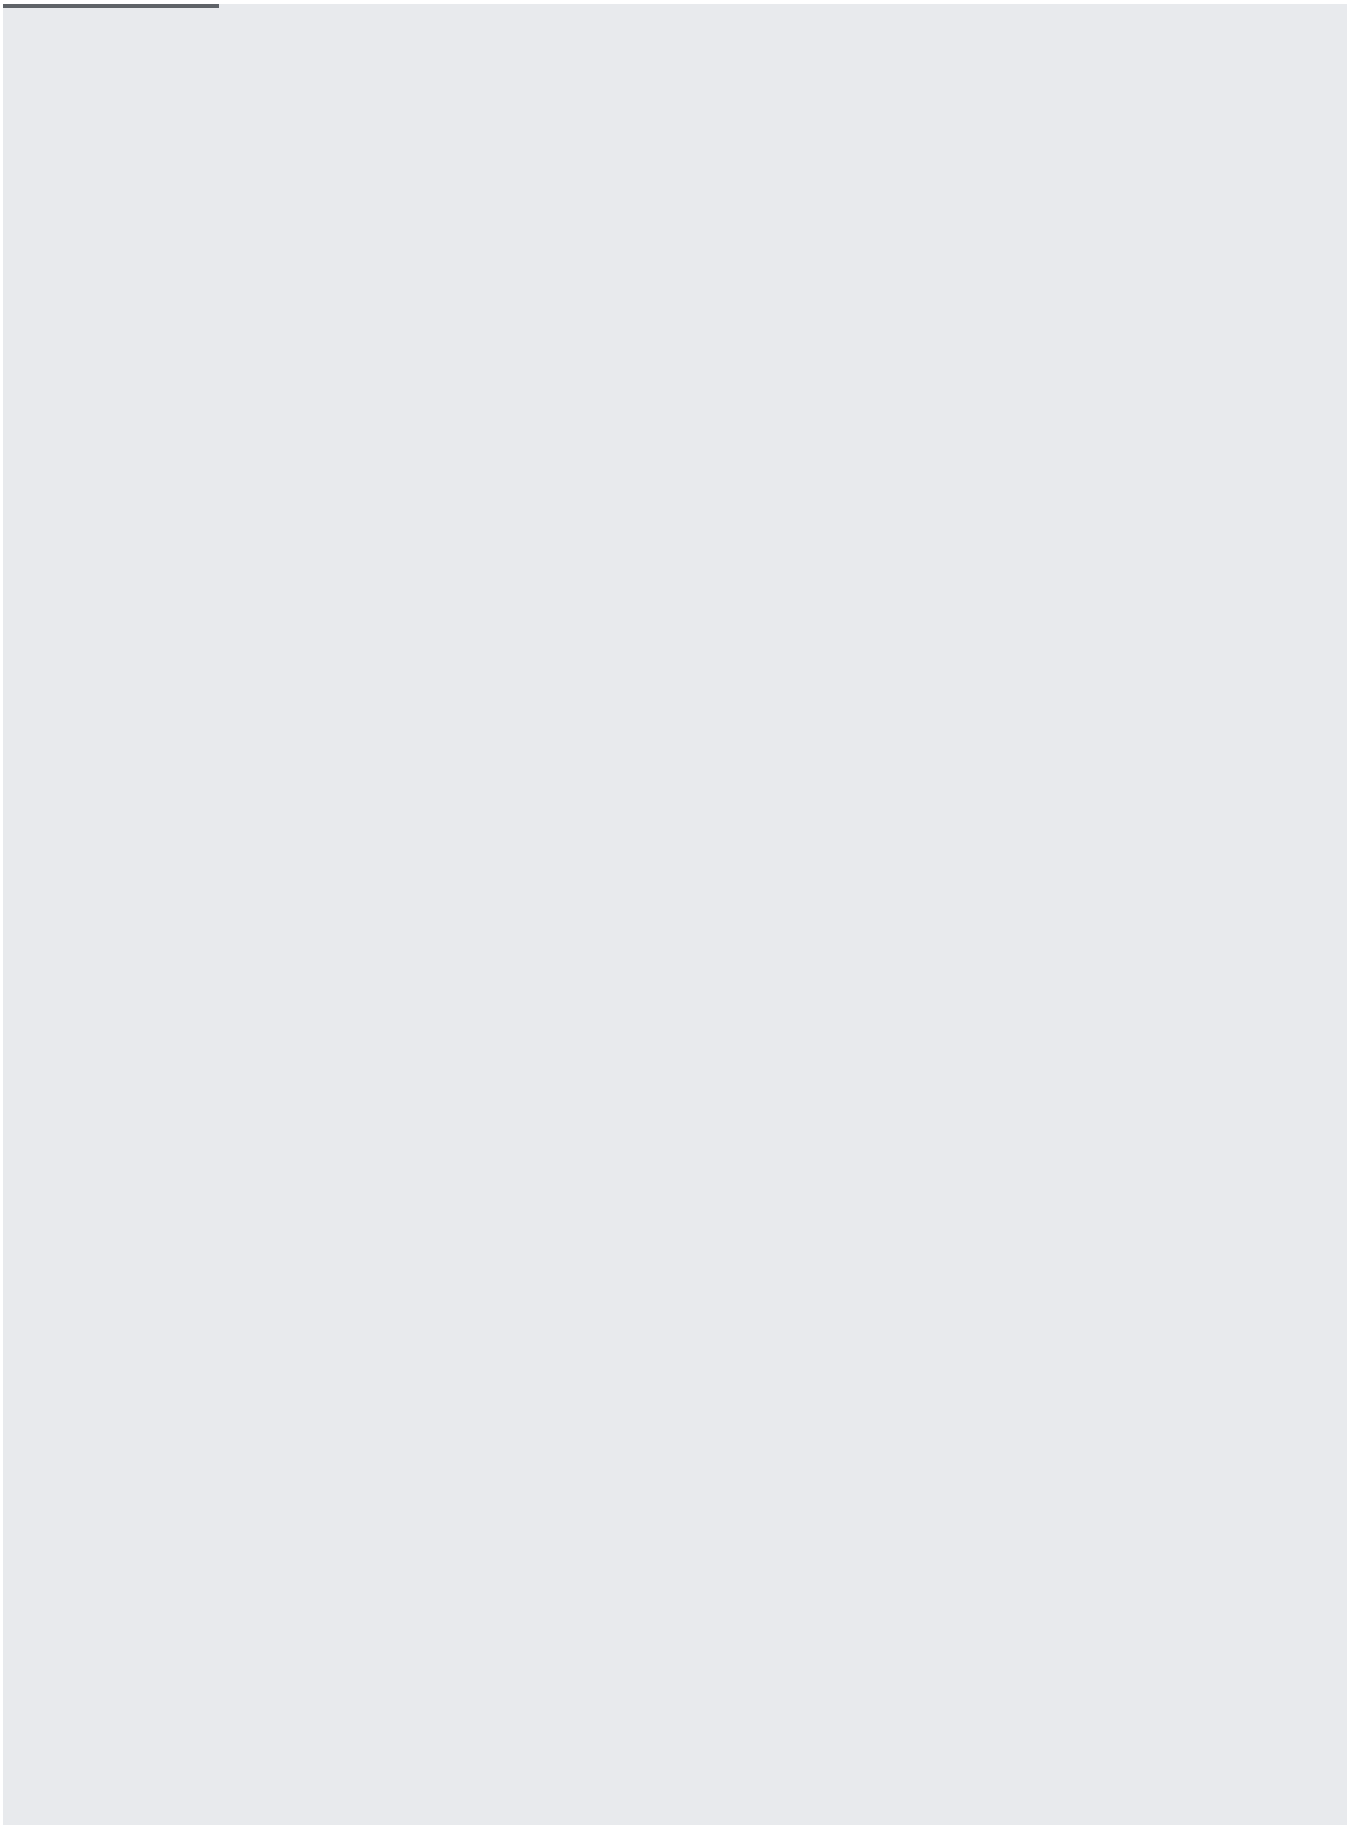

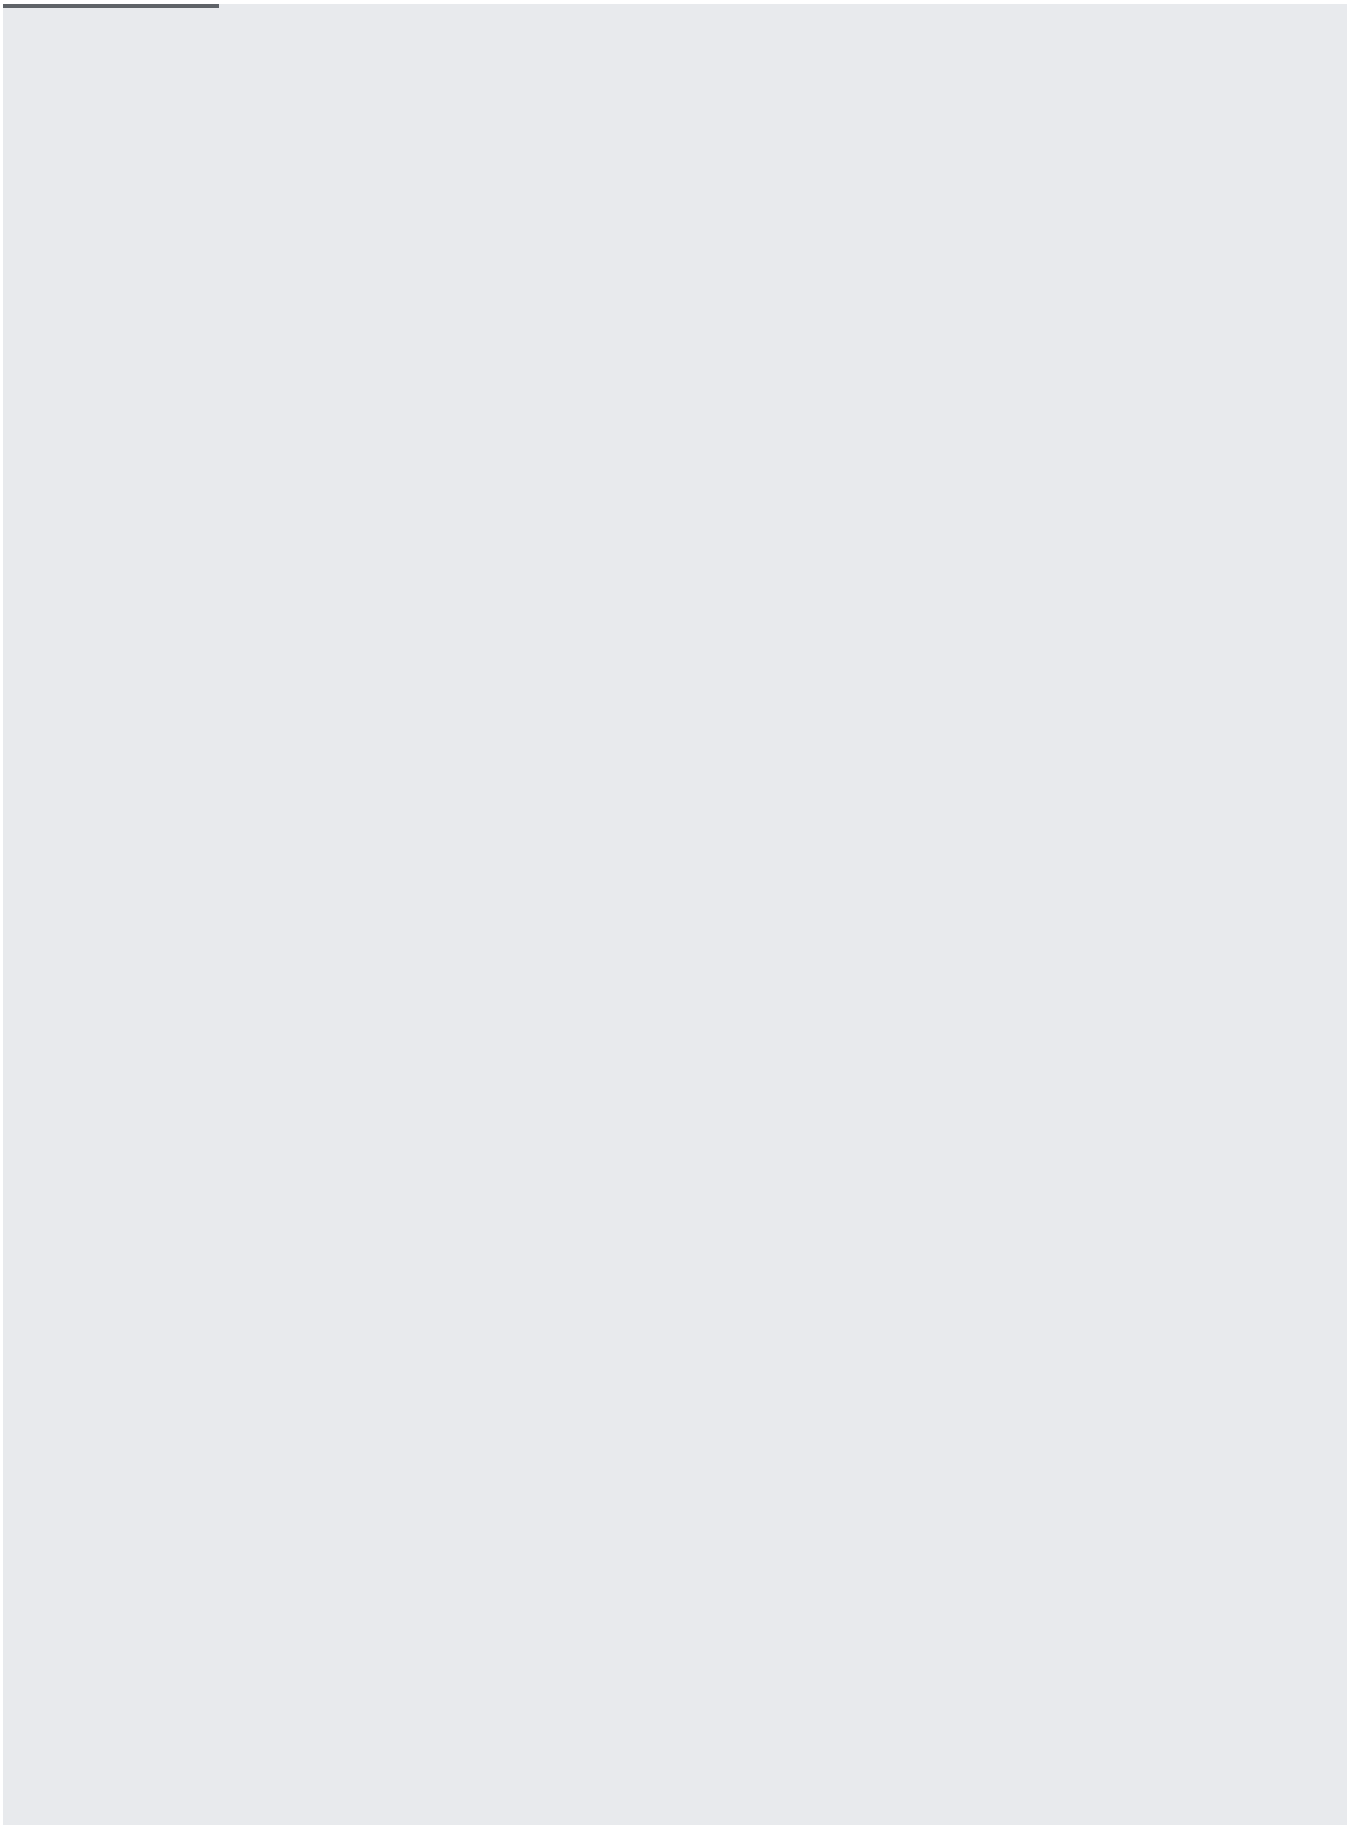

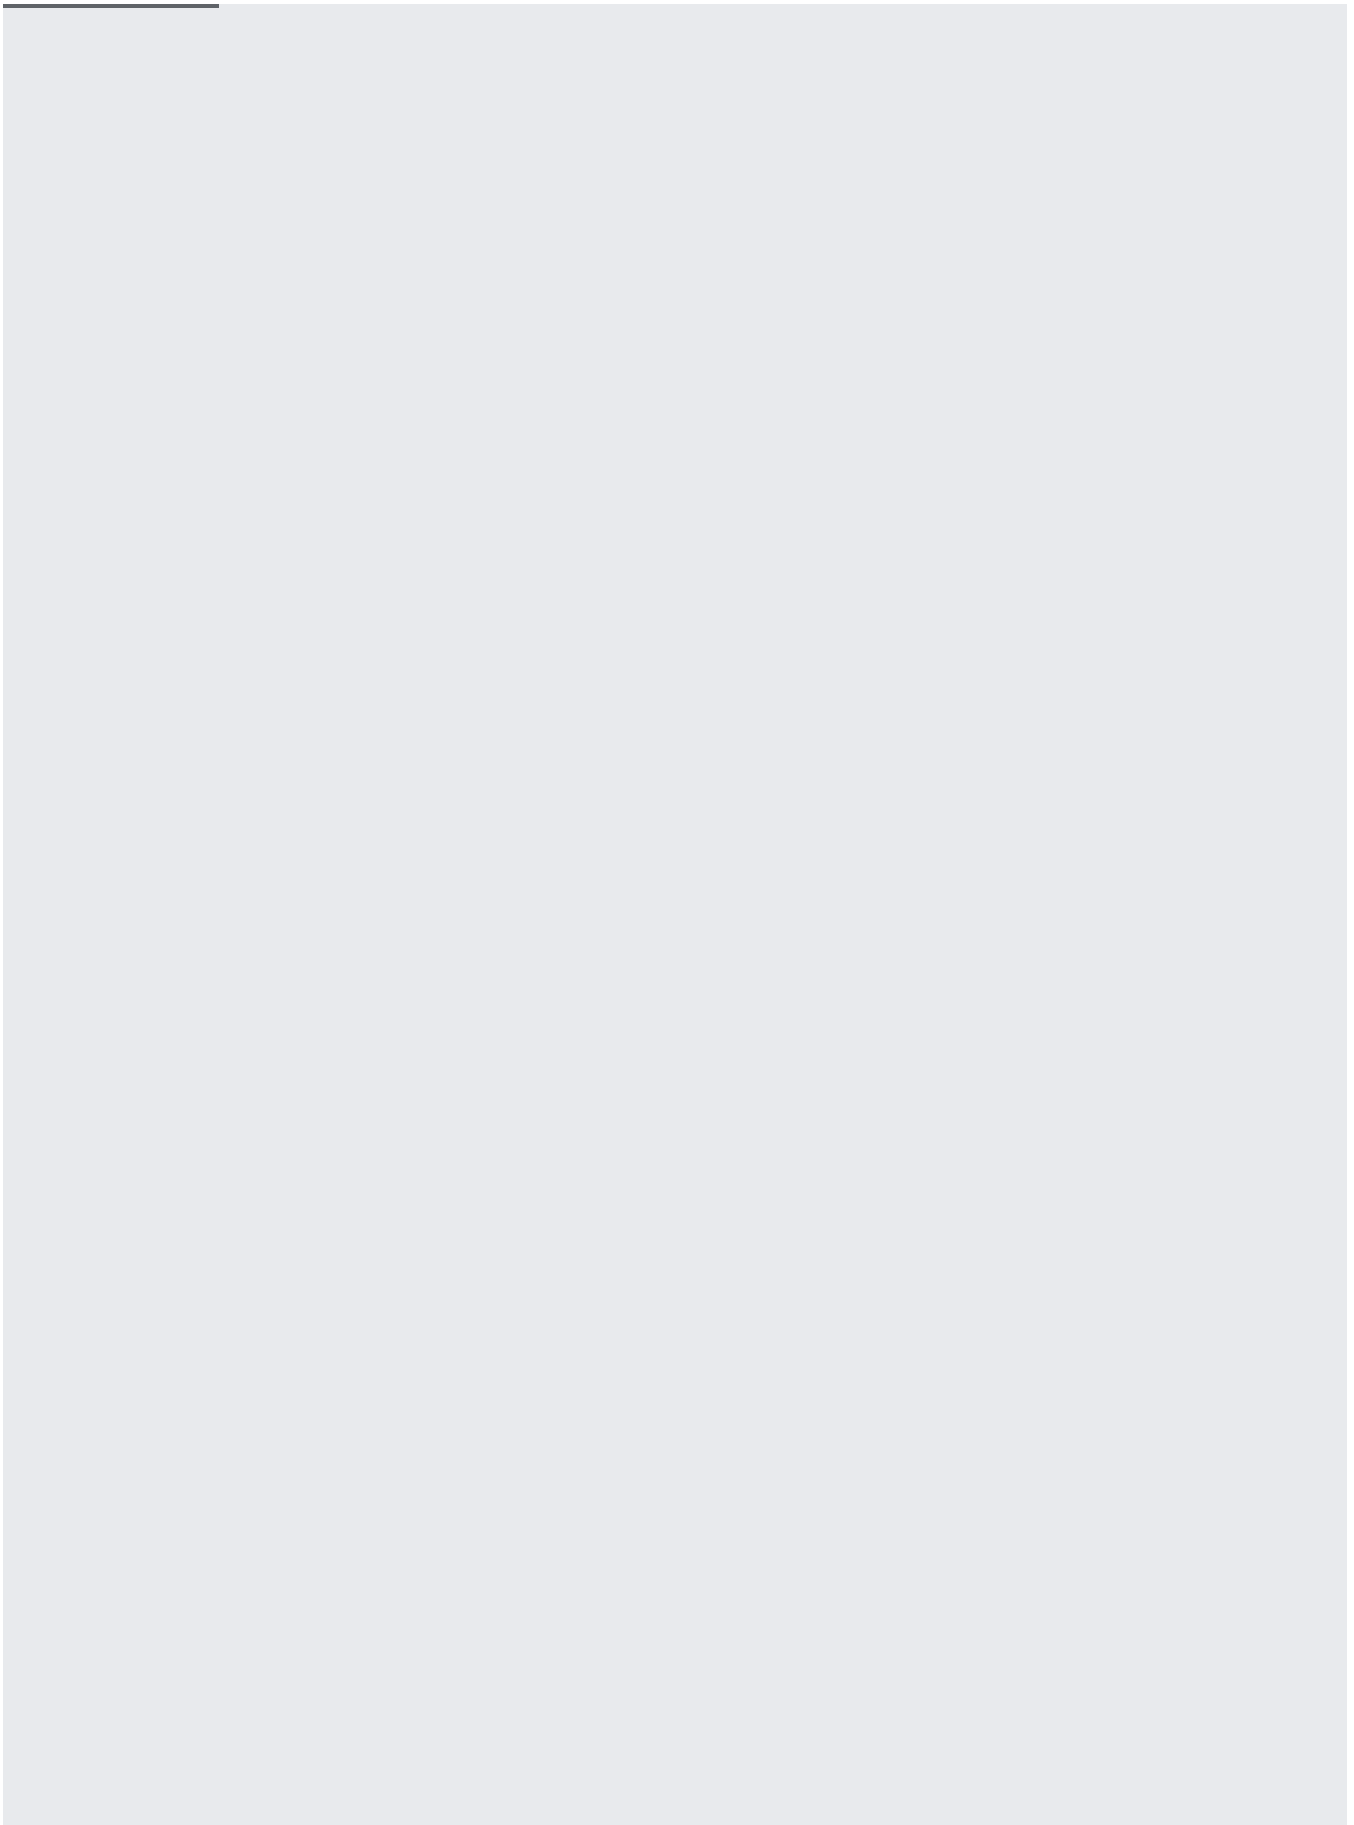

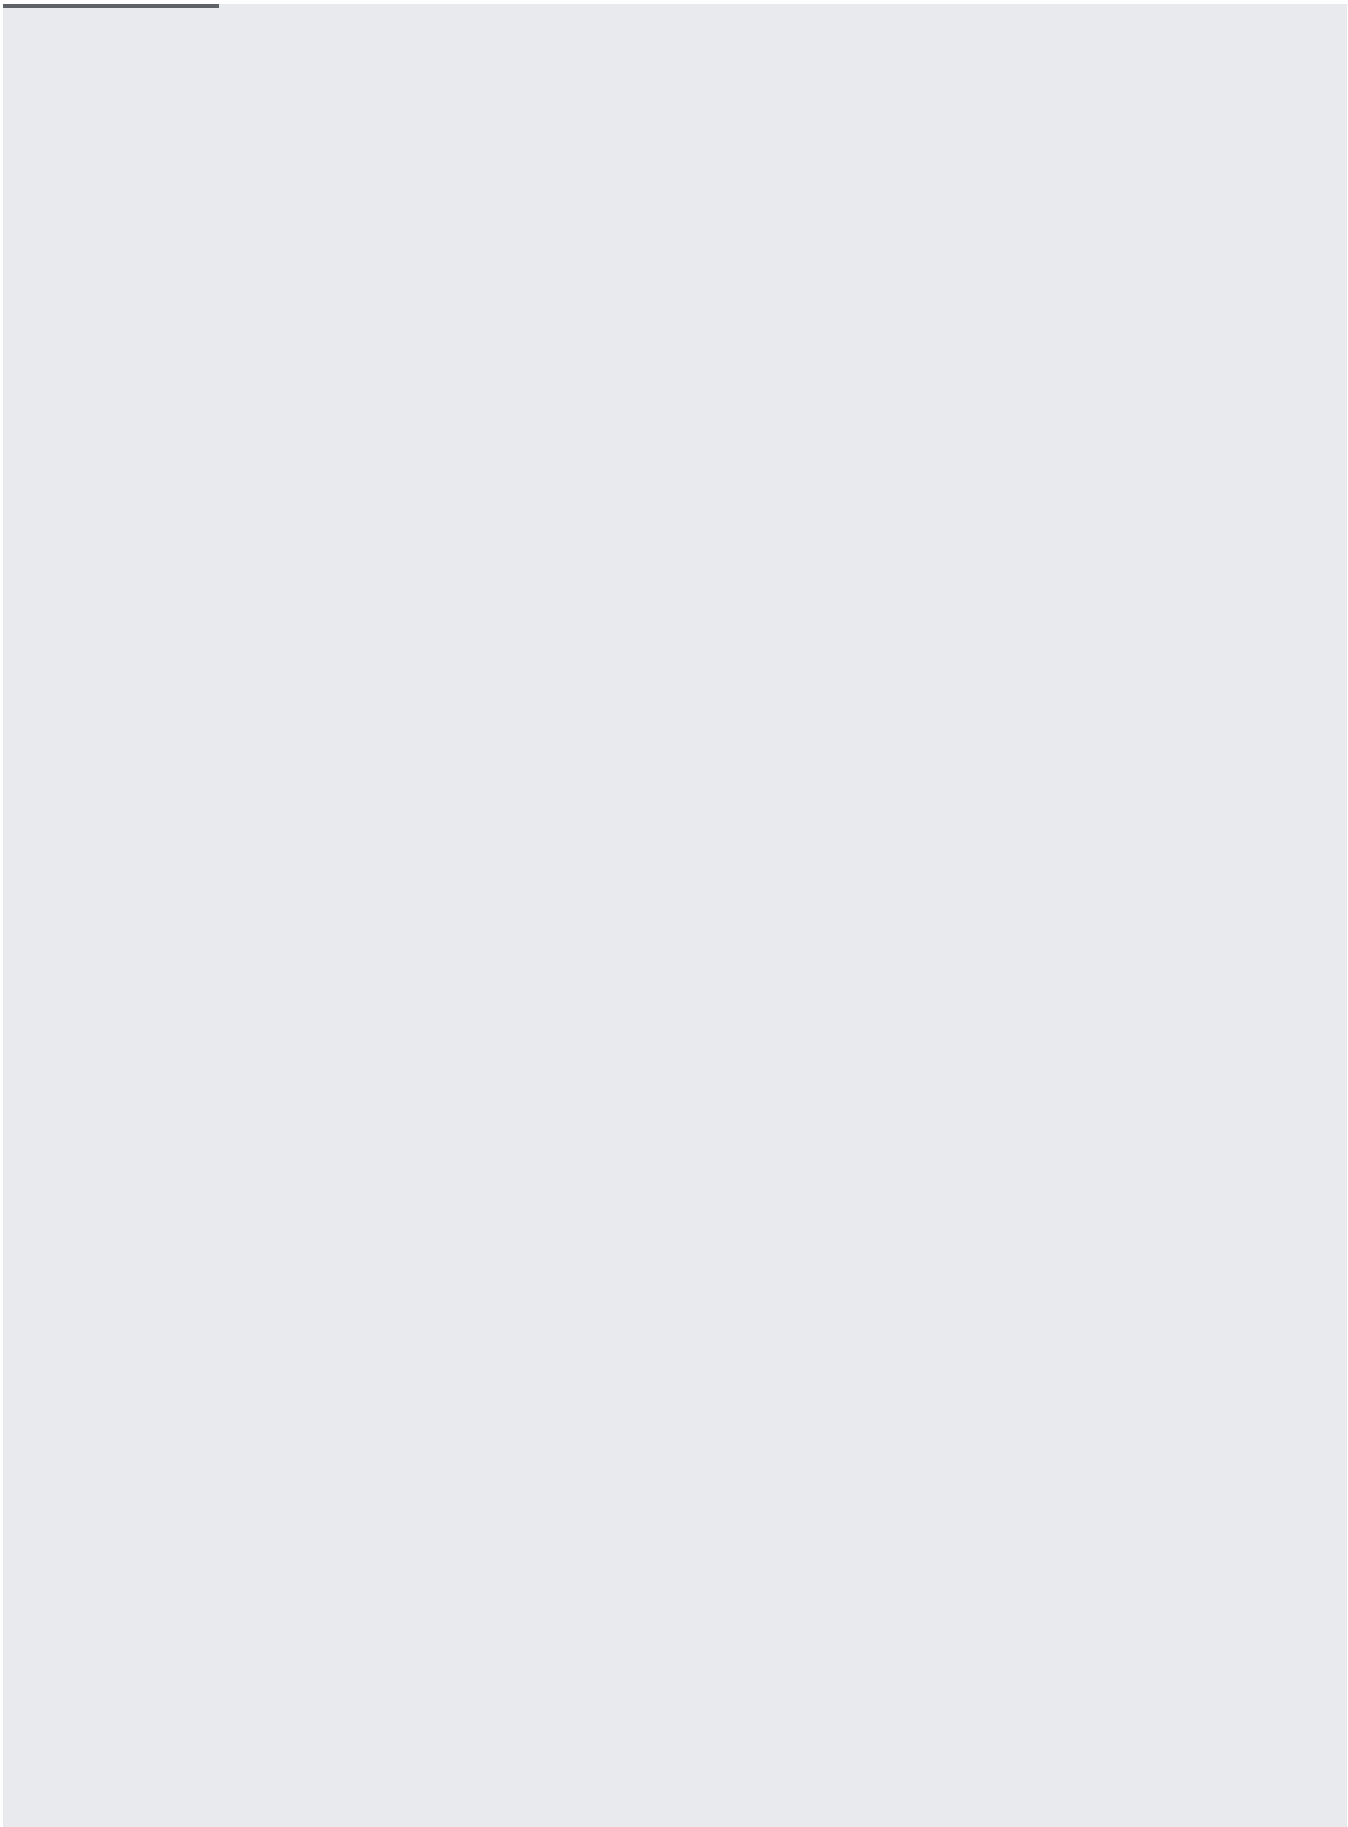

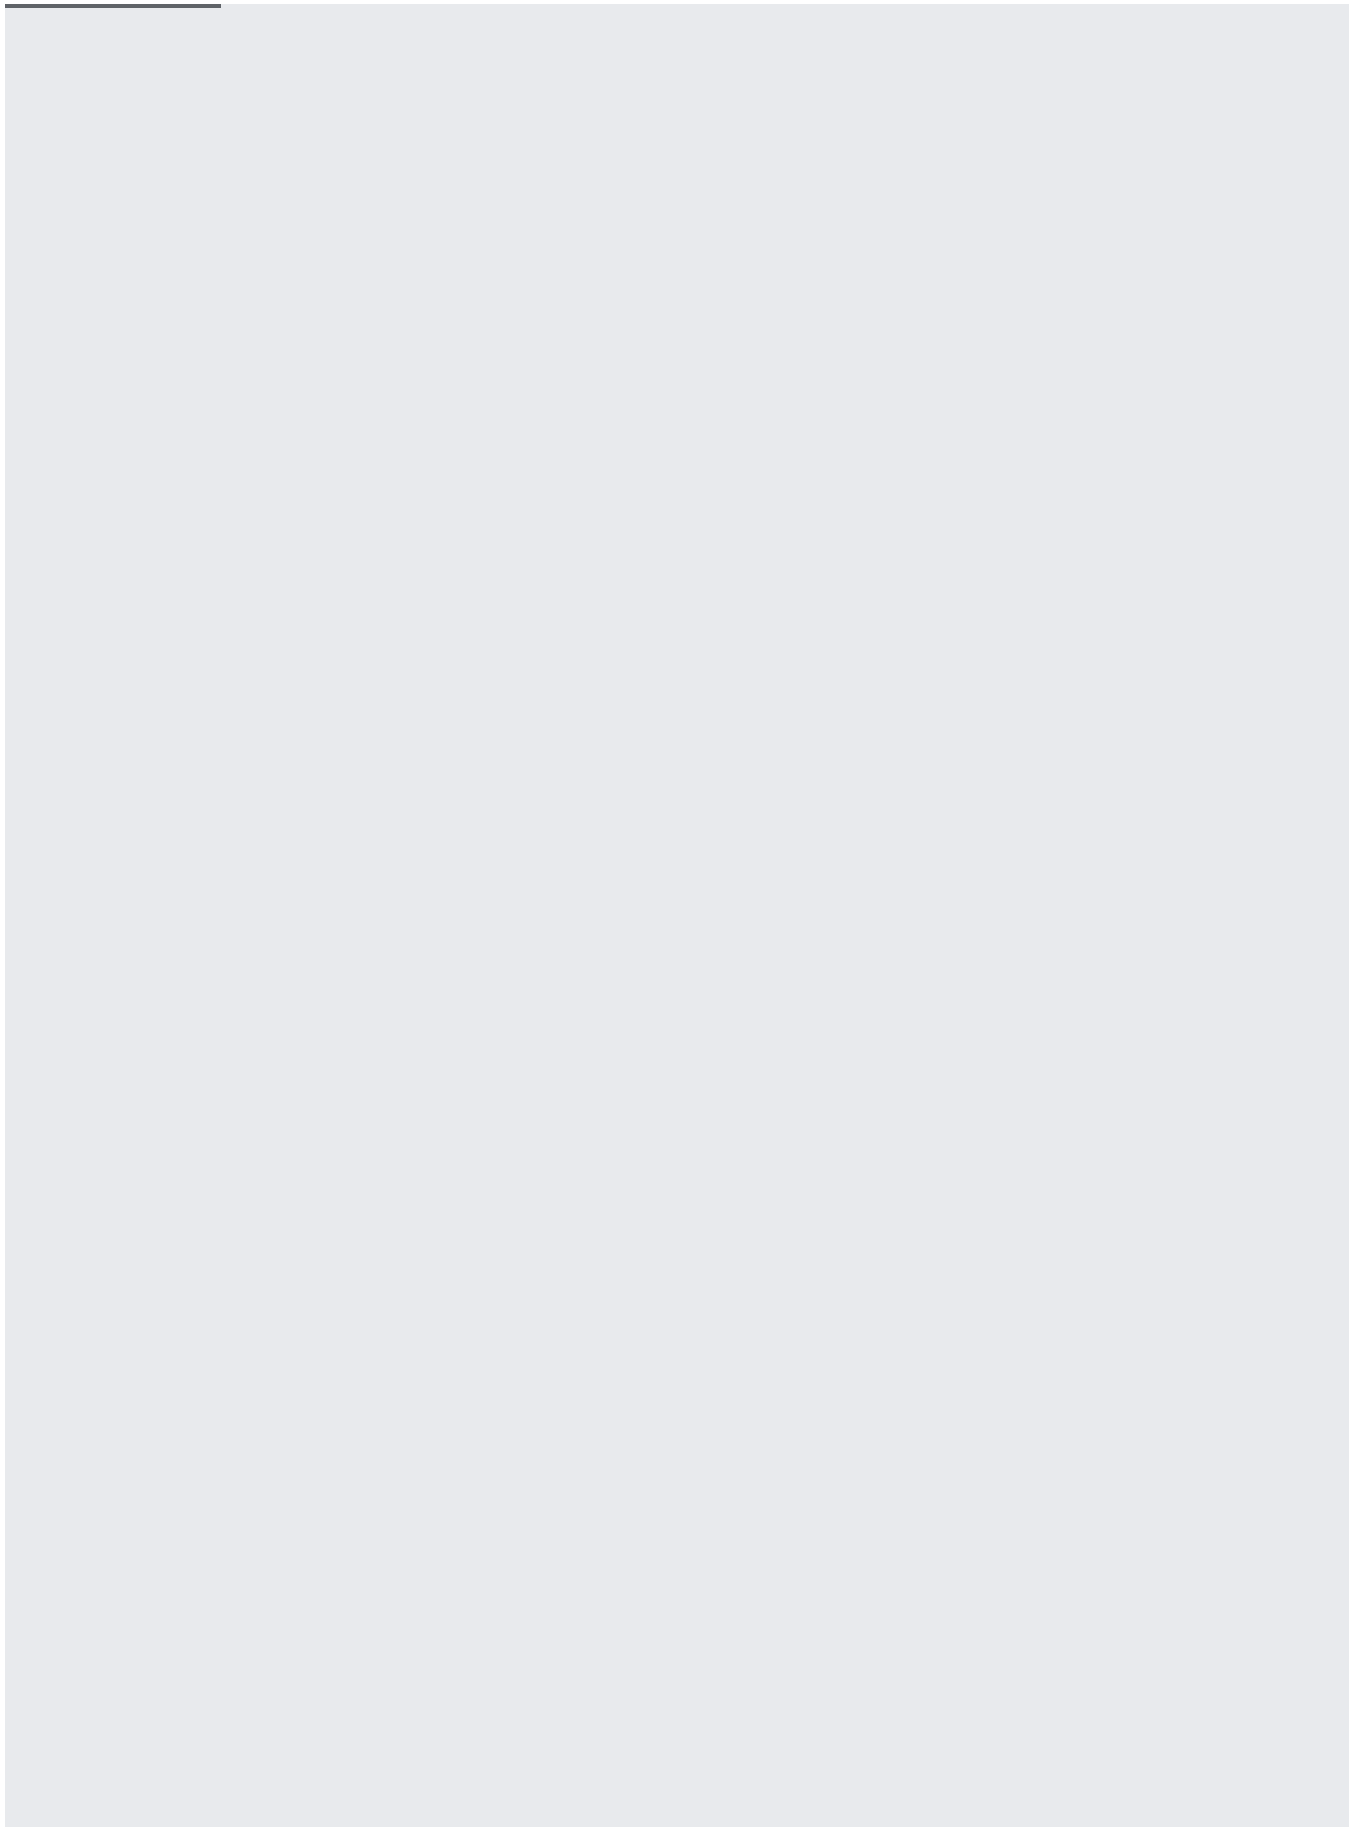

- [List the objects in your bucket \(/storage/docs/listing-objects\)](#).
- [Change the default storage class for your bucket \(/storage/docs/changing-default-storage-class\)](#).
- [Add, remove, and view the labels on your bucket \(/storage/docs/using-bucket-labels\)](#).
- [View and edit the metadata of objects in your bucket \(/storage/docs/viewing-editing-metadata\)](#).
- [Learn more about monitoring your resources in Stackdriver \(/monitoring/api/v3/metrics\)](#).
