Cloud Talent Solution language search support

Support for **Job Search** in a language other than "English - US" / "en-US" is a Beta feature and not covered by an SLA. Cloud Talent Solution currently allows customers to create and update jobs in any language supported by the [Translation API](#)

(https://cloud.google.com/translate/docs/languages). Jobs in a particular language are then searchable if a job seeker queries Cloud Talent Solution in the same language.

Profile Search (Beta) is supported in "English - US" / "en-US" only.

This page and the Cloud Talent Solution [Release Notes](#)

(https://cloud.google.com/talent-solution/docs/release-notes) will be updated when additional search languages are supported.
