HTTP Response Codes

You might see the following response codes while using the service:

Error Code	Description
200	OK.
400	Invalid argument or bad request.
401	Unauthorized access.
403	Access forbidden. Please check the cloud console and credentials file to ensure that the service has been correctly enabled.
404	Resource not found.
409	Attempted to create a resource that already exists, or aborted.
429	Too many requests. The client has exceeded the allocated quota restrictions. Please see quotas and limits (https://cloud.google.com/talent-solution/quotas) for details on your quota.
499	The operation was canceled.
500	Internal server error.
501	The operation is not implemented or is not supported/enabled.
503	Service unavailable. Try again later.
504	Gateway request timeout.
