# Pricing

Note: Pricing changes noted in this document are in effect as of May 15, 2018.

Cloud Talent Solution is priced according to the number of API calls sent it on a monthly basis, outlined in the table below. You must enable billing in order to use Job Search, however you will only be charged if your usage exceeds the free quota (1-10,000 queries per month). Only [search](https://cloud.google.com/talent-solution/job-search/docs/reference/rest/v4beta1/projects.jobs/search) and [searchForAlerts](https://cloud.google.com/talent-solution/job-search/docs/reference/rest/v4beta1/projects.jobs/searchForAlert)

(<https://cloud.google.com/talent-solution/job-search/docs/reference/rest/v4beta1/projects.jobs/searchForAlert>)

Job Search calls resulting in a 200 HTTP response count toward your quota. Charges are applied to all projects that use Cloud Talent Solution and are billed to the [billing accounts](https://cloud.google.com/billing/docs/) associated with these projects.

You can also use the Google Cloud Platform [pricing calculator](https://cloud.google.com/products/calculator/)

(<https://cloud.google.com/products/calculator/>) to estimate your Cloud Talent Solution costs.

## Prices per query
