

Gets the access control policy for a resource. Returns an empty policy if the resource exists and does not have a policy set.

GET <https://automl.googleapis.com/v1beta1/{resource}:getIamPolicy>

#### Parameters

**resource**

**string**

REQUIRED: The resource for which the policy is being requested. See the operation documentation for the appropriate value for this field.

Authorization requires the following [Google IAM](#) (<https://cloud.google.com/iam>) permission on the specified **resource**:

- `automl.models.getIamPolicy`

The request body must be empty.

If successful, the response body contains an instance of [Policy](#) (</translate/automl/docs/reference/rest/v1beta1/Policy/>).

Requires the following OAuth scope:

- <https://www.googleapis.com/auth/cloud-platform>

For more information, see the [Authentication Overview](#)

(<https://cloud.google.com/docs/authentication/>).
