

Lists models.

GET <https://automl.googleapis.com/v1beta1/{parent}/models>

Parameters

parent	string
	Resource name of the project, from which to list the models.
	Authorization requires the following Google IAM (https://cloud.google.com/iam) permission on the specified resource parent :
	<ul style="list-style-type: none"> • automl.models.list

Parameters

filter	string
	An expression for filtering the results of the request.
	<ul style="list-style-type: none"> • model_metadata - for existence of the case (e.g. videoClassificationModelMetadata:*)). • datasetId - for = or !=. Some examples of using the filter are: • imageClassificationModelMetadata:* --> The model has imageClassificationModelMetadata. • datasetId=5 --> The model was created from a dataset with ID 5.

Parameters

pageSize	integer Requested page size.
pageToken	string A token identifying a page of results for the server to return Typically obtained via ListModelsResponse.next_page_token (/automl/docs/reference/rest/v1beta1/projects.locations.models/list#body.ListModelsResponse.FIELDS.next_page_token) of the previous AutoML.ListModels (/automl/docs/reference/rest/v1beta1/projects.locations.models/list#google.cloud.automl.v1beta1.AutoML.ListModels) call.

The request body must be empty.

If successful, the response body contains data with the following structure:

Response message for [AutoML.ListModels](#)

(/automl/docs/reference/rest/v1beta1/projects.locations.models/list#google.cloud.automl.v1beta1.AutoML.ListModels)

.

JSON representation

Fields	
<code>model[]</code>	<p>object (<u>Model</u>) (/automl/docs/reference/rest/v1beta1/projects.locations.models#Model)))</p> <p>List of models in the requested page.</p>
<code>nextPageToken</code>	<p>string</p> <p>A token to retrieve next page of results. Pass to <u>ListModelsRequest.page_token</u> (/automl/docs/reference/rest/v1beta1/projects.locations.models/list#body.QUERY_PARAMETERS.page_token) to obtain that page.</p>

Requires the following OAuth scope:

- <https://www.googleapis.com/auth/cloud-platform>
