Deploys a model. Not applicable for this product. This product automatically deploys models when they are successfully trained.

Returns an empty response in the <u>response</u>
 (/video-
intelligence/automl/docs/reference/rest/v1beta1/projects.locations.operations#Operation.FIELDS.response)
field when it completes.

POST `https://automl.googleapis.com/v1beta1/{name}:deploy`

Parameters

name	`string`
	Resource name of the model to deploy.
	Authorization requires the following <u>Google IAM</u> (https://cloud.google.com/iam) permission on the specified resource **name**:
	• `automl.models.deploy`

The request body must be empty.

If successful, the response body contains an instance of `Operation` (/video-intelligence/automl/docs/reference/rest/v1beta1/projects.locations.operations#Operation).

Requires the following OAuth scope:

- **`https://www.googleapis.com/auth/cloud-platform`**

For more information, see the Authentication Overview
 (https://cloud.google.com/docs/authentication/).
