Gets a model.

GET `https://automl.googleapis.com/v1beta1/{name}`

Parameters

name	string
	Resource name of the model.
	Authorization requires the following <u>Google IAM</u> (https://cloud.google.com/iam) permission on the specified resource **name**:
	• `automl.models.get`

The request body must be empty.

If successful, the response body contains an instance of **Model** (/video-intelligence/automl/docs/reference/rest/v1beta1/projects.locations.models#Model).

Requires the following OAuth scope:

- `https://www.googleapis.com/auth/cloud-platform`

For more information, see the Authentication Overview
(https://cloud.google.com/docs/authentication/).
