ature is in a pre-release state and might change or have limited support. For more information, see the product launc
s (/products/#product-launch-stages).

Label analysis (/video-intelligence/docs/analyze-labels) detects labels in a video.

The following sample shows how to use Video Intelligence API streaming label detection to annotate a video.

The following sample shows how to use a custom AutoML model (/video-intelligence/automl/docs) with streaming label detection.
