Cloud Vision API Product Search

Method: projects.locations.products.referenceImages...

Permanently deletes a reference image.

The image metadata will be deleted right away, but search queries against ProductSets containing the image may still work until all related caches are refreshed.

The actual image files are not deleted from Google Cloud Storage.

HTTP request

```
DELETE
https://vision.googleapis.com/v1/{name=projects/*/locations/*/products/*/referenceIm
ages/*}
```

The URL uses gRPC Transcoding
 (https://github.com/googleapis/googleapis/blob/master/google/api/http.proto) syntax.
